

GOTHART (CZ) – Rakija´n´Roll

This year the Gothart band celebrates its 10th anniversary, releases fifth album and presents absolutely new kind of the world music – Rakija´n´Roll.

On the newest, already fifth album, the Gothart represent themselves as a mysterious mafia family called Miaktić. Gothart, together with strong help of guesting horn section arranged by Petr Ostrouchov, remake the balkan traditional into the new musical style Rakija´n´Roll.

Album is loaded with balkan booz, the south sun hidden behind the clouds of gunpowder and tobacco smoke.

Since its last album in 2001, Gothart brought in three new members – percussionist Bety Mijaktić Josefy, accordionist Marko Mijaktić Vojtech and drum set player Mitko Miaktić Stancic.

During the last year Gothart played many venues in Czech (such as Colours of Ostrava, EWMF member) or abroad (Przystanek Woodstock in Poland, Ile de France in Paris, Lithewa in Slovakia). Aside of these, Gothart also supported benefit projects, f.e. Slatinany social house benefition or a benefition for handicapped in Beroun. In June, the band played a special concert in slovakian gypsy village Rozkovany, where the Czech National Television filmed the documentary movie for the Human in Need association. Out of this material we just prepare the shortest czech video clip.
